Why is the term displayed in the "Subscription" column in English, while in the choice to make it is in French??

What is the function for?  useless here.

Edit Manufacturer window:

- Reduce the height of the Address 1 and Address 2 fields -
- Add a First Name field - Bug on Postal Code. Does not take the 0 as the head of the number.
- Telephone format to impose -
- Customer Code: Alphanumeric

QBsoft offers a choice of one Chap0 Part2 per domain.

It is therefore necessary that a choice of domain be proposed when creating these documents.

When creating a project, the Prescriber can select a Chap0 Part2 of his choice (or none) in the Project Property module.

General libraries: - Increase

the size of the text body of the labels (Bib, Cat, Ouv)

- Extend the list to the bottom of the window - Lock

the width of the window (1/4 of a full screen)

- Extend the labels of the lines over the entire width of the column - Do not authorize the label on 2 lines
Info bubble Book: Display the label of the book and not that of the Category
Info bubble: bring the info bubble closer to the line concerned (to be tested)

- Reduce the size of the point in front of the Work line - s/

Menu: Display the correct Title of the CCTP (corresponding to the text of the CCTP)

Project grid (valid for the different types of Market): - Reduce the width of the columns: Unit; Qty; PU HT and Total HT. The automatically adjust based on the largest value in the column.

- When we reduce the global window, we adjust the Designation column.

- Mark the thousands of numbers entered in the Qty column - Mark the thousands of numbers calculated in the VAT cell.

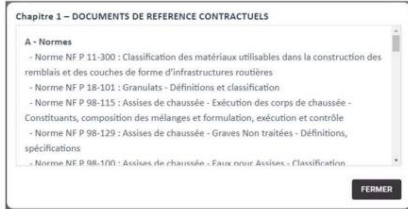

- Rename "Total Price" to Total Amount including VAT:

PROJECTS _Libraries _Menu

No texts

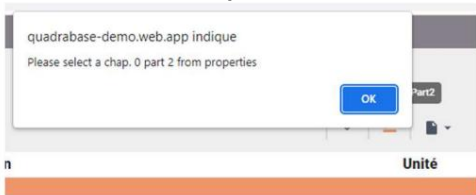

- In the menu at the end of the line of Libraries and Categories, if there are no associated texts, you must put the info: "No texts", IN FRENCH!

PROJECTS_Libraries_Visu Texts

- The title of the CCTP displayed does not correspond to the content of the CCTP: For example, for Untreated Materials, there is no CCTP1 text. We have the texts CCTP2, CCTP3 and CCTP4.
- This error must therefore be corrected and the correct list of CCTPs displayed in the menu and the correct texts corresponding to the chapters integrated.

PROJECT_GRID_Chap0 Part2

- Chap0 Part2-
- Message to Francisate when a Chap0 Part2 is not selected in the Project properties - The opening of the selected Chap0 Part2 does not happen! we always have the same message which invites us to select a Chap0 Part2.
